An illustration: When I landed by the T. S. S. California, I was brought in contact with an individual whom I hould like to meet in some quiet corper in the old country. I was solemnly warned not to say a word in opposition to the desires of the particular officer to whom I refer. Evidently those on board the California knew him. But I frankly declined to sink my individuality. I declined to be subservient to the wishes of Lord Tom Noddy. I declined to accept insults and insinuations as part of my contract in taking a trip to "God's own country." My wife was put in one corner, I in another. At present the Englewood team has won five games and only lost one, while the South Orange Field Club has captured four victories and lost twice. If the latter team can defeat the Englewoods the teams will be tied for the title while, on the other hand, a vicory for the Englewoods will give them the championship. WURRA, WURRA! RANDOM SHOTS AT H, SAY, CAN YOU SEE by the dawn's early light those dandy American

flags, three in a row, holsted on the battleground of Stockholm FIVE FIMES in a week, while all the other nations went around the barn to kick 'emselves good and plenty? Getting first, second and third in the 100-metre lash, the 110-metre hurdles, the 200-metre run, the shot-put and the pole vault is conclusive proof that we have the speed, the endurance, the strength and the agility that are attributes of progressive civilization.

And won't we give those boys, who are making kings and dukes and plain civil servants grit their teeth, a good hand when they come back to the only country on earth. WOW! And again WOW!

I'll be down on the dock to meet them if I have to stay up after 9 at night.

PATHETIC SIDELIGHT of the great contests now being waged in Stockholm is the shamefaced way in which Pinland gets the credit for her points. It is the custom at Olympic meets to hoist the flag of each country that figures one, two or three in any event. That alone has kept Ireland out of the contests because, oddly enough, her nationhood is not recognized by the powers, although Canada, South Africa and Australia, all three British colonies or provinces, are recognized by the holsting of their flags on the rare occasions that they distinguish themselves. The absolute elimination of Ireland is hard indeed, but it has its recompense in the fact that Ireland's possible points cannot be scored for England. The Swedish officials, with a curious concillatory idea, hoist the Russian flag, across which is sewn in small letters the word "Finland." But, maybe, the Rooshuns may be the ones that are burs

HEY WERE DRINKING THE "CHARTER TOAST" when I made a friendly call on some of my Orange friends, who were still celebrating the 13th of July to-day, although it is a day late. Ever hear the Charter Well, ft's a beauty. Here it is:

Here's to the glorious, plous and immortal memory of the great and good King William the Third (not forgetting Oliver Cromwell), who saved us from all Popes and Popery, knaves and knavery, slaves and slavery, brase money and wooden shoes.

And all that refuse to drink this toast, may they be rammed, stammed,

crammed and damned into the great gun of Athlone, to be blown over the hills of damnation. May their teeth be converted into paving stones, to pave the way of the Cropples into hell, and their blood into train oil to light their souls to damnation. May I be at the end of the gun with a flery flambeau to send them burring round the earth, the moon, the stars and the sen, like files round a sugar cask on a hot summer afternoon; may they be blown against the rock of blastation and come down in a shower of innumerable pieces, and may those pieces be picked up and made into sparables to mend the soles of Orangemen's boots to walk on the 19th of

For more than two hundred years that tost has been drunk in Derry, Down Tyrone, Monaghan-aye, and Cavan and Armagh on the 13th of July. The eting of the anathema is moderated by the genuine far-down humor that rippies through it, and, instead of provoking the resentment of the hated Papiets, it draws the smile that is ever ready with the Irishman of all creeds or factions

And, say, die see that piece of news in to-day's papers about the Orange-men's parade in Belfast? Well, eir, it tells how 50,000 gallant Orangemen marched in a "torrential downpour." Then the cables give us this rare touch of my native sud:

of my native sod:

"An attempt by 200 youthful Nationalists to tear down an Orange arch led to a sharp conflict. The paraders desperately resisted repeated efforts to break Seir ranks.

Wild scenes of stone throwing and window smashing ensued, and when

the police, with a baton charge tried to restore order, both sides fought them furiously.

"Scores of persons were hurt by flying stones, and two policemes were so badly injured that they were taken to the hospital."

Now, what I am sorely pussled about is this: Granting that 50,000 Orangemen are attacked by 200 "youthful Nationalists." how does it happen that two policemen were taken to the hospital?

A VOICE—Who licked the cope?

ANSWER—Not the Orangemen.
